

# Imprivata ID: Is your smartphone ready?

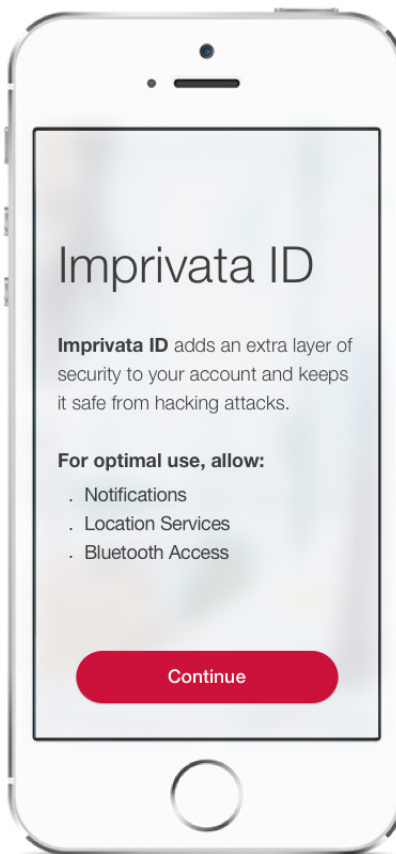

✓ **Imprivata ID app running**

The Imprivata ID app doesn't have to be open on your screen, but it must be running in the background.

To make sure, tap the Imprivata ID app icon and check that the token timer is counting down.

✓ **Imprivata ID app permissions set**

In the Imprivata ID app settings, make sure:

- Location is set to Always
- Bluetooth Sharing is on
- Notifications are allowed

Also, make sure your phone's **Location Services** are on.

✓ **Bluetooth on**

Your smartphone's Bluetooth must be on to enable Hands Free Authentication. Bluetooth is not required when logging in remotely.
